

DO YOU SMOKE?

Smokers are at a much higher risk of developing lung cancer due to exposure to **radon** (EPA, 2022)

RADON

is a naturally occurring invisible odorless gas that causes cancer (EPA, 2022)

Radon can seep through the ground and enter your home. when it is inhaled, radioactive particles get trapped in your lungs (AEGIS, 2022)

For more information about radon risks, and how to test:

Radon is unregulated in Oregon. (Multnomah County, 2022)
Get your home tested, and soon

or go to linktr.ee/radoninfo
